From the Office of the President--

Hello fellow turners,

How about that mini- symposium!!! From all accounts it was a rousing success and we had about 27 students attend. If we can sign up just a few of them it was all worth it. Kudos to Jim Pope and Will Arcularius for doing the groundwork and setting up the shop.

Don't forget to bring your work for the show and tell to the next meeting on May 13th.

Take care, turn safe and turn often.

From the Office of the Secretary--

I have received some very positive feedback regarding the April meeting format. The multiple, open turning demonstrations were very successful and allowed the attendees to interact with the turners on a one to one basis. We are planning this format in the future , possibly for the October ,2023 meeting.

This months newsletter is a bit condensed as there wasn't a Show and Tell and not many photos.

We are making the application for membership to Southern Utah Woodturners available on our website as well as including with the newsletter mailing as a separate attachment. Please mail form, with dues check (\$30) for 2022, to Glenn Pearson at the address on the application so he may update our records for the membership roster.

The demo of the month: Todd requested we have a mini symposium for the club and his students. There were six lathes set up. Reiner Jakel demonstrated turning gnomes. Jim Pope demonstrated turning miniature rolling pins, tops and cups. Will Arcularius demonstrated turning weed pots. George Mason demonstrated making rings. Karl Bradshaw demonstrated making pens. Barry Gray demonstrated turning bowls. Leon Olson demonstrated turning eggs. There were club members, students and their parents and others in attendance. The meeting went past noon and included pizza for those who stayed. We cleaned up and closed the shop about 2:00 pm.

WHY WE LIVE IN SOUTHERN UTAH

**Hiking Peekaboo Loop, Bryce Canyon National Park
Glen Pearson Photos**

**Dedicated to promoting woodturning in Southern Utah through
educational demos, classes & fellowship between members.**

"Learning Through Turning"

Turn Often & Turn Safe

Motion Industries is near Costco. They sell belts and bearings among other things. This location is a sales office but they gets things quickly.

Mike's repair is not far from Canyon View High School but it is on the north side of the freeway. There is a road under the freeway from the school. The website is mikestool.com You need to be careful to get it exact. There is another website that is one letter different.
